

## // David Herrero – Bio //

---

"I live for music. When I go into the studio with the same excitement as the very first day . . . "

Right place, right time. Maybe it's an old cliché, but one that's been the hallmark of David Herrero's music career. Just as the dance music world was heading into the world of funky house, Herrero was there. And then, when it began to embrace the mix of organic, tribal deep grooves Herrero was there again, leading the way with his productions. As Herrero goes, it seems, so does electronic music.

Hailing from Asturias, Spain where David's rich, eclectically crafted sound has informed the global underground scene through a well-honed production palette.

Impressively, Herrero has already released over 200 tracks and remixes with many more to come. Knowing each one intimately by the moment in life that inspired his creations. All of which are reasons Herrero has received support from the likes of Marco Carola, Loco Dice and Richie Hawtin and many others.

Herrero's steadfast representations of both versatility and adaptability have set him apart as the "organic" house specialist. This path of success has manifested into David receiving a calendar packed with appearances

at the international map in some of the globes biggest clubs such as Space Miami, Womb Tokio, and Footwork Toronto and more.

David Herrero is a believer in giving people the feeling of happiness. Wholeheartedly committed to that role has placed him in a position where he could be deemed as the "superstar of hearts" . . .
